### Warnings

#### Liver warning:
This product contains acetaminophen. Severe liver damage may occur if you take:
- More than 6 doses in 24 hours, which is the maximum daily amount
- With other drugs containing acetaminophen
- 3 or more alcoholic drinks daily while using this product

#### Sore throat warning:
If sore throat is severe, persists for more than 2 days, is accompanied or followed by fever, headache, rash, nausea, or vomiting, consult a doctor promptly.

#### Do not use:
- With any other drug containing acetaminophen (prescription or nonprescription). If you are not sure whether a drug contains acetaminophen, ask a doctor or pharmacist.
- With any other drug containing diphenhydramine, even one used on the skin
- If you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric, or emotional conditions, or Parkinson’s disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.
- For children under 12 years of age

#### Ask a doctor before use if you have:
- Liver disease
- Heart disease
- High blood pressure
- Thyroid disease
- Diabetes
- Trouble urinating due to an enlarged prostate gland
- Glaucoma
- Breathing problems such as emphysema or chronic bronchitis
- Persistent or chronic cough such as occurs with Smoking, asthma, chronic bronchitis, or emphysema
- Cough that occurs with too much phlegm (mucus)

### Directions
- Do not take more than directed (see Overdose warning)
- Do not take more than 6 doses in any 24-hour period
- Measure only with dosing cup provided
- Do not use dosing cup with other products
- Dose as follows or as directed by a doctor
  - Adults and children 12 years of age and older: 20 mL in dosing cup provided every 4 hours
  - Children under 12 years of age: do not use

### Directions (continued)
- Stop use and ask a doctor if:
  - Nervousness, dizziness, or sleeplessness occur
  - Pain, nasal congestion, or cough gets worse, or lasts more than 7 days
  - Fever gets worse, or lasts more than 3 days
  - Redness or swelling is present
  - New symptoms occur
  - Cough comes back, or occurs with fever, rash, or headache that lasts. These could be signs of a serious condition.

#### If pregnant or breast-feeding,
ask a health professional before use.

### Keep out of reach of children.

#### Overdose warning:
Taking more than the recommended dose (overdose) may cause liver damage. In case of overdose, get medical help or contact a Poison Control Center right away. Quick medical attention is critical for adults as well as for children even if you do not notice any signs or symptoms.
